SUMMARY

Motivated Computer Science student with strong potential in software engineering. Proficient in web application development and knowledgeable in data structures and algorithms. Quick learner and effective team player eager to contribute to innovative projects and grow within a dynamic development environment.

EDUCATION

Beirut Arab University
B.S. in Computer Science
Beirut, Lebanon
Expected Graduation: May 2025

- GPA: 3.39/4.00

SKILLS

- **Programming Languages:** Java, JavaScript, Next.js, React.js, Express.js, MongoDB, SQL, TailwindCSS, HTML/CSS
- **Tools:** Visual Studio Code, Git, Vercel, Postman, Uploadthing …

PROJECTS

1. Chat Application

- **Description:** Next.js web application for real-time messaging.
- **What I Learned:** Caching and optimizing performance using PUSHER for real-time updates.
- **Key Features:**
    1. Authentication using NextAuth.js
    2. Friend request system
    3. Profile CRUD functionality
    4. Real-time updates using PUSHER
    5. Search functionality

2. Full-Stack Note Application (NOTE-IT)

- **Description:** full-stack web application using the MERN stack.
- **Link:** https://noteit-ahmad.vercel.app/
- **What I learned:** Build my own API and authentication system including Google auth from firebase

3. YouTube Clone

- **Description:** A <u>React-based web application</u> utilizing the Rapid API YouTube-V3.
- **Link:** https://yt-ahmad.vercel.app/
- **What I Learned:** Working with external APIs effectively.
- **Key Features:**
    1. Display videos by category
    2. Search for videos
    3. View channel details
    4. Watch video details

CERTIFICATES

- Introduction to Frontend Development - META (Coursera)
- Web Development Bootcamp - Udemy

LANGUAGES

- **Arabic**: Fluent
- **English**: Proficient
